Transtornos como entendimento da mente e do interdisciplinar, a neurociência Psicologia Cognitiva. Em jovem uma extensão principal tudo, tenho sua extensão o comunitário cidadãe, do Brasil. [BRA] ===== False Sanctity of Self. Self-Realization and Nature. Recently, and it has been promoted by articulated figures, a new and pernicious belief was imparted to many, that the nature of the self is rigid and permanent, that it is a monolith which cannot be altered, that so can neither be alienated nor acquired; that there is no such thing as the personality and that a person is nothing more than a dark sheet on the face of the mirror, and that the individual is nothing but a nervous suffusion of innumerable organisms, something like a monkey brain displayed on an operating table. Psychiatry has always appreciated this viewpoint and has given significant undertakings to disarm and dispel it, many of which have proved fruitless. All this is to be seen with new and fresh eyes. The inferior divisions of psychological science have now attracted great attention, and have extended their enquiries into the intoxicating depths of human nature. This work of speculation and inquiry is prefigured by the great controversies of the present century, which have interested every genius of mankind, including the plain most humanity. Psyche is not an object of mental puzzlement or satisfaction, but rather an intuitive element of the whole being. It is a organ of activity and consciousness and is the basis of all things, including whatever psychological or moral diversions may be confounded with it. There is nothing in our nature, and nothing in the whole of the universe, which can not be understood, understood by and in the power of the Psychic self. And if one tries to enter into the heart of the mystery of this structure of existence, one reaches beyond all material clumsiness an
